Crenshaw PreK-12

4,500 Students
5,000 Parents
8 Schools
4 Communities

= 1 Collaborative,
1 Goal

4,500 Students
4,500 Parents
8 Schools
Community Members

1 Collaborative, 1 Goal

The CPK 12 Collaborative is a network of students (YEC), parents (P4P), school staff (G2G) and community members.

The goal of the CPK 12 Collaborative is to ensure that EVERY student in the Crenshaw feeder pattern is prepared for college and career.

Parents

P4P empowers parents to gain the tools and strategies to support and advocate for their students' academic success and college preparation.

Principals

G2G links principal leadership across the Crenshaw community feeder pattern to coordinate educational strategies for improved community-wide academic outcomes, matriculation and alignment.

Students

YEC empowers students to foster individual academic development and create a sustainable college bound culture via a student-driven movement.
